INFORMATION ITEM: Service through Disaster Relief Trips

BACKGROUND INFORMATION:
Six years ago, UNCG re-invented its student leadership development and community service approach, grounded it on UNCG’s motto “Service,” and built it on the notion that student out-of-class experiences ought to be powerful learning experiences- not just serendipitous but intentional learning. Hurricane Katrina disaster relief trips have been a timely service opportunity pursued students during winter and spring breaks. A student panel will talk with the trustees about their recent experiences with hurricane disaster relief trips.
