INFORMATION ITEM: Annual Report on Property Purchased and/or Leased Since September 10, 2009

BACKGROUND INFORMATION:

The Board of Governors at its meeting on November 13, 1981 adopted a resolution on delegation of leasing authority within the University. The resolution reaffirmed the authorization to each Board of Trustees to delegate to its Chancellor some authority to acquire or dispose of real property. This Board at its meeting on June 15, 1994 took that action. The Board also directed that a report on properties purchased or leased in the previous fiscal year be presented by the Vice Chancellor for Business Affairs to the Board at its fall meeting.

PROPERTY REPORT:

In order to fulfill our reporting requirements and to keep the Board updated on land purchases and lease arrangements since September 10, 2009, we provide the following:

Properties Purchased Since September 10, 2009

The UNCG Board of Trustees, at its meeting on November 21, 1985 authorized the administration to pursue acquisition of all land not owned as of that date (which was within the boundaries of the campus as proposed in the Long Range Master Plan) and to request funding from the Board of Governors for this purpose. On September 6, 2007, the Board of Trustees approved the 2007 Campus Master Plan Update and with that approval, reaffirmed the authorization to acquire land to expand the campus as proposed in the 2007 Master Plan Update. Limited funding was provided for land purchases as a component of the 2000 Higher Education Bonds. These purchases used the remainder of the 2000 Higher Education Bonds allocated to UNCG.

The following properties were acquired by the State of North Carolina (UNCG) from the Capital Facilities Foundation:

121 McIver Street, Greensboro, NC - The property consists of a two-story wood-frame house containing 3,707 square feet on .24 acres adjacent to other campus properties. Formerly a privately owned 9-unit apartment house, this structure would require significant code and life safety upgrades to make it suitable for University use. Therefore, the University is in the planning stages for demolition of this structure. The house is listed as a contributing structure in the National Register Historic District, but does not lie within the College Hill Historic District. The administration has followed all protocol in working with the North Carolina State Historic Preservation Office and Commission to allow for comment and documentation of the property. The administration has also worked with Architectural Salvage of Greensboro, the salvage arm of Preservation Greensboro, to allow removal of building materials that are of
architectural value. The property location is expected to contribute to the eventual siting of a future Childcare Development Center as described in the Campus Master Plan.

1410 and 1410-Near W. Lee Street, Greensboro, NC - The property consists of a one-story industrial building containing 15,328 square feet on 2.51 acres divided into two parcels. The building, constructed in 1940, was damaged by fire in early 2009 and planning by the University for demolition has begun. This property’s strategic location on the northeast corner of S. Aycock Street and W. Lee Street provides an opportunity for a southern gateway to the existing campus. It will also be a primary entryway to the new Student Housing Mixed-Use neighborhood being developed by the Capital Facilities Foundation.
