INFORMATION ITEM: Update on Strategic Planning

BACKGROUND INFORMATION: The UNCG Strategic Plan 2009-2014 includes 29 goals. During 2009-2010, 13 goals were activated and 10 implementation plans were completed. During 2010-2011, 8 more goals were activated and 9 implementation plans were completed, leaving the implementation plan for two of these goals to be completed during 2011-2012. Deans Council and Executive Staff concurred that no additional goals will be activated this year. At this point, 19 implementation plans have been completed, 2 implementation plans are under development, and 8 goals have not yet been activated. Most divisions and units have developed plans to support the UNCG plan and a proposal for a public strategic planning dashboard is under development.
